

Reporting to: Senior surveyor/quantity surveyor (or from time to time other heads of departments during the training process).

Purpose: To learn the tasks and responsibilities of a Quantity Surveyor in preparation for an Assistant Quantity Surveyor role

Achieving Results

- Consistent provision of timely and accurate documentation/outputs to a given timetable, as directed by the SQS/QS responsible.

Managing the Process

- Assisting in project cost control procedures in particular, re-measurement of the works/variations, inventories of stocks and evaluation of the interim/Final Account.
- Assisting in and obtaining an understanding of effective management of cash, including careful administration of allocated sub-contractor accounts as directed by SQS/QS, at all times cognisant of the need to cultivate effective/longstanding relationships and promote dispute avoidance.
- Assisting SQS/QS as required, in the Main and Subcontract Final Account process.
- Assisting in the compilation and/or maintenance of sub-contract database/details, e.g. CIS/Insurances, etc.
- Attending, observing and participating as required with other members of the project team, internal and external, in such as progress meetings, etc.
- Evidence a suitable knowledge of/ensure compliance with the Company's policies and procedures in respect of Health, Safety, the Environment, LIBMS, I.T. and Human Resources

Serving the Customer (Internal and External)

- Form and develop relationships with PQS and Design Team.
- Form and develop relationships with supply chain.

Delivering Quality

- Attention to detail
